WEB DEVELOPMENT / ONLINE BRANDING | PERMANENT / IN-OFFICE

SKILLS

Currently I work with	React React Native Expo Vue.js Next.js Typescript Node.js Python REST APIs GraphQL NoSQL SQL Docker GitLab CI / CD GitHub Actions Unix systems AWS Amplify / AppSync / Cognito / DynamoDb / Lambda / ElasticSearch
Frontend specialization	Project architecture API client design and implementation API cache layer UI component library Navigation Internationalization Store modeling / thunks / side-effects / persistence
Things I like using	Asynchronous execution Observables and event emitters Data streams and event streams Functional programming Websockets Data processing Microservices Continuous integration End-to-End / integration / logic tests Debuggers ECMAScript.Next Contemporary web features Experimental UIs
Organisational and managerial	<ul style="list-style-type: none">• Strong analytical, problem solving and self education skills• Self-directed, with a positive can-do attitude• Willing to take up tasks, responsibilities and project development guidance• Interested in knowledge sharing in team and across organization• Good communication skills with clients, co-workers and user base
Helping others grow	<ul style="list-style-type: none">• Four success stories with mentoring university / bootcamp graduates landing a Junior Dev job

WHAT I AM LOOKING FOR

POSITION	I am seeking a Lead or Staff Software Engineer position. I specialize in Product Engineering and System Architecture, taking ownership of the entire development lifecycle. My focus includes translating complex requirements into scalable technical designs, establishing engineering best practices, and optimizing Developer Experience. I am committed to technical leadership that fosters code quality, mentorship, and high-velocity delivery in cross-functional teams.
LOCATION	I am open to remote, hybrid, and on-site positions. I am based in Berlin, Germany, but sometimes I need to travel for family or professional reasons.
EMPLOYMENT TYPE	I am open to full-time permanent employment, as well as short-term and long-term freelance or contractor projects.
WORK SAMPLES	Please visit my GitHub account if you want to check out some of my personal projects and open source contributions. Unfortunately a lot of the hard work I have done in the past is not open source and belongs to private companies, but upon the needs of collaboration, I can outline the technology stack and procedures that I used in the past.
